

## Booking Portal Issues

- Look & Feel
  1. Extra spaces need to be covered
  2. Hover effects on all the buttons
  3. A decent color theme for the complete portal
  4. Improved design/new design will be even better
- Features & Functions
  1. None of the button or links are working below the booking section.
  2. Pop messages need to be improved. For now they are extra large and under covered as well

The screenshot shows a booking form with the following fields:

	DEPARTURE	RETURN	TRAVELLER & CLASS
Los Angeles	May, 6 ' 2022	Select a return date	1 Traveller
Los Angeles Internati...	Friday		Economy

A yellow message box is overlaid on the form, stating: "Please select a return date to proceed". Below the message box is a blue "Search" button.

3. Mark dots need to be removed and a submit/search button is required, so that once the user have selected the number of passengers he/she can submit it. Button can be added below "bussiness" option.

The screenshot shows a form with two sections:

**CHOOSE NUMBER OF PASSENGERS**

Passenger Type	Count
Adult 12 Yrs & above on the day of travel	4
Child 2 - 12 Yrs on the day of travel	3
Infant Under 2 yrs on the day of travel	0

**CHOOSE TRAVEL CLASS**

The form shows three radio button options for travel class: Economy, Premium Economy, and Business. The Business option is selected and highlighted with a blue background.

4. None of the “filter” or “sort” option is working as if now, they need to be fixed as well. These option also needs some, UI/UX refinements.

**Filter By**

Stops from Dallas

0 Non Stop ₹2245    1 Stop ₹7890    2+ Stops ₹54321

Departure from Dallas

Before 6AM -    6AM - 12Noon -    12Noon - 6PM ₹67890    After 6PM ₹98765

Arrival at Los Angeles

Before 6AM -    6AM - 12Noon -    12Noon - 6PM ₹67890    After 6PM ₹98765

5. This extra space can be utilised to display some additional useful information as well

 **IndiGo** ₹25217

☐ 13:40 Los-Angeles    6h 5m Non stop    19:35 Dallas    ₹25217

6. These options are not working as well, there functionality need to be implemented.

★ Recommended ₹37787    🏷️ Cheapest ₹35304    ⌚ Shortest ₹63702    📅 Alternate Dates ₹36235    📍 Nearby Airports ₹35304

7. Payment gateway need to be implemented here at “pay” button

Price Details		INR
Taveller(s)	Price per person	Subtotal
4 x Adults	₹25217	₹100868
3 x Children	₹25217	₹75651
premium - (Support package)		₹1159.98
<b>Total Price</b>		<b>₹177678</b>

**Pay ₹177678** 

8. This “signin” button need to be synced with with the navbar, because it Don’t get disabled even after user is logged in.

9. Things need to be dynamically rendered instead of hard-coding it manually. API integration for flights, status and payment need to be done.

10. User dashboard need improvements as well be it features or UI
